

Money: Making a Total Cost

Use place value in money to add and subtract.

Can you choose the right coins to make a total cost?

Identify and use the correct coins in pounds (£) and pence (p) to make a given total.

Digit the DB Monkey is asking for different totals of money. Draw the coins you would use to pay her each time! Try to use the least amount of coins and make the exact amount.

That's £3.99
please.

That's £1.74
